

Peace on Earth

In peace we are here today
To remember the brave on this special day
Even though I'm only 8, and war I've never been through
I'm grateful for the soldiers brave and true.

In Canada our men fought for our land
Protecting our freedom with a strong hand
I'm sad that wars ever had to start
But I'm hopeful for peace deep in my heart.

In the future I hope wars come to an end
No more lives lost or hearts to mend
I hope for a world where peace will win
And love will never be lost again.

Lest we forget this very day
The importance of peace in every single way
It's in our hands to make a change
And create a world where we're all friends
